Kinzie Backup Generator Systems
8513 Meadowlark Lane
Bethesda, MD 20817

TO WHOM IT MAY CONCERN

This letter will confirm that in 2004, SIPC purchased from Kinzie Backup Generator Systems an Onan 35000 Watt Standby Generator and a 225 Amp Transfer Switch. The use of the generator is to provide standby electricity to our UPS which runs our backup computer and telephone systems at our business continuity office located in Dunn Loring, Virginia. I found everyone at Kinzie to be professional and more importantly, attentive to detail. If we build another backup office, I would not hesitate to hire Kinzie for the job.

Sincerely,

A handwritten signature in black ink that reads "Linda McKenzie Siemers". The signature is written in a cursive style with a long, sweeping underline.
